

## KING STREET

This was once a part of the Dean Moore farm, so is not to be found on the 1892 map. Before 1900 two houses had been built on the lots nearest the Osgood Road and for many years they were the only houses. They had no access to Ford or George except for paths. A street had been made 1935 from George to Ford Street and connected with the houses at the end of the road.
